## Face-to-face education

Our model:

Our education model is comprised of seven domains that are aligned to the strategic direction of Sydney Local Health District.

Courses and programs are grouped under the domains so staff can find courses to suit their career needs and goals. The domains are interdependent: education and training in one domain will have an impact on knowledge and understanding in another domain.

## Programs and Qualifications

Development programs	
<b>Clinical Nurse Educator Professional Development Program</b>	Leaders of the future
This program is for existing District CNE/CME staff. This program aims to provide participants with the knowledge, skills and tools to perform the role of a clinical educator. Participants must complete Teaching on the Run prior to enrolment.	This interprofessional program is for junior clinicians who have leadership potential and would like to start shaping their career in SLHD. Participants will be expected to complete workplace activities over the duration of the program.
