

**CODE:** T6520 M2337/1

**ID NOS:** 1544 A6077

**DIAGNOSIS:** ILEUM - MECKEL'S DIVERTICULUM.

**CLINICAL HISTORY:** M/65. This was an incidental finding in a patient with carcinoma of the prostate.

**MACROSCOPIC:** The specimen is a segment from the distal portion of the ileum showing a typical Meckel's diverticulum. It had remained symptomless during life.
